# Roberts, Warren P. W.

[On the map](#)

## 2019 CE Leader

Dr. Roberts is a 1977 graduate of the University of British Columbia. His services complement the aesthetic treatment provided by his wife, Dr. Janet Roberts. Their dental practice, A Smile Above, is located in Coal Harbour, Vancouver, BC. He has taken advanced education at the Las Vegas Institute for Advanced Dental Studies, as well as at the Frontier Institute (formerly the California Center for Advanced Dental Studies). He is a past president of the British Columbia AGD and the Fraser Valley Dental Society. He is currently a member of the Vancouver and District Dental Society, the American Academy of Cosmetic Dentistry, and the Canadian Academy of Esthetic Dentistry. A general dentist in practice for more than 35 years, Dr. Roberts attended several Botox and facial rejuvenation training programs earlier in his career and was concerned with the level of training being provided. The result

was the development of the Pacific Training Institute for Facial Aesthetics (PTIFA), which provides an unprecedented depth of clinical theory, hands-on teaching, and practice integration (including team training) in the field of facial rejuvenation. Since 2008, he has trained more than 7,000 doctors internationally and has treated hundreds of Botox patients. He developed the following templates and procedures, setting the standard for treatment in facial rejuvenation: the Roberts Facial Rejuvenation Photography series, the PTIFA Cosmetic Marking Template, the PTIFA Therapeutic Marking Template, the PTIFA Injection Technique, the PTIFA Injection Rules, the Botox Set-up Tray, and the first Botox study club. Dr. Roberts' most recent lectures have covered temporomandibular disorders, parafunctional habits, periodontics, endodontics, surgical, implants, orthodontics, sleep apnea, and the use of Botox for treating headaches and migraines. He has published articles on Botox in dentistry for *Dentistry Today*, *Teamwork*, and *Oral Health*.
